PROJECTS

Website project (Team Work)

Kilakarai Service Team

- "Collaborated with Troop7 to design and develop the official website for Kilakarai Eratha Uravugal, a local service team focused on ambulance and blood donation services. Led the front-end development using HTML, CSS, and JavaScript, ensuring a responsive and user-friendly interface. Integrated intuitive UI/UX elements to streamline user access to emergency services and community resources."

App UI Project

FinTech Application

- "Designed and developed a sleek, user-centric UI for a fintech application, optimizing workflows for tasks such as payments, budgeting, and investment tracking. Leveraged tools like Figma and React to create responsive layouts and interactive dashboards, prioritizing accessibility, security, and seamless user experiences."

Website UI Project

Go Fly Travel Booking Website

- "Designed a modern, intuitive user interface for a fintech application using Figma, focusing on seamless user flows for financial tasks such as payments, budgeting, and investment tracking. Applied UI/UX best practices to create responsive, visually cohesive layouts, improving usability and enhancing user engagement."
